ACADEMIC APPOINTMENTS

2023-	Assistant Professor , Herbert Wertheim School of Public Health	UC San Diego
-------	---	--------------

EDUCATION

Columbia University	New York, NY
----------------------------	--------------

Ph.D., Environmental Health Sciences, 2021
Columbia Mailman School of Public Health, Dept. of Environmental Health Sciences
Advisor: Darby W. Jack, PhD

Yale University	New Haven, CT
------------------------	---------------

B.A., Environmental Studies with honors, 2015

PROFESSIONAL EXPERIENCE

2021-2023	Stanford Earth Postdoctoral Fellow , Earth System Science Supervisor: Marshall Burke, PhD	Stanford University
2018-2021	Research Fellow , Initiative for Sustainable Energy Policy Supervisor: Johannes Urpelainen, PhD	Johns Hopkins
2016-2016	Research Assistant , Stockholm Environment Institute Supervisor: Robert Bailis, PhD	Boston, MA
2015-2016	Research Assistant , Berkeley Air Monitoring Group Supervisor: Michael Johnson, PhD and David Pennise, PhD	Berkeley, CA
2013-2015	Research Assistant , Yale School of Forestry & Environmental Studies Supervisor: Robert Bailis, PhD	New Haven, CT

JOURNAL PUBLICATIONS

* Indicates corresponding author, if not first or last.

RESEARCH GRANTS

2025-2030	<i>The ESPINA Study 18th Year Follow-Up: A Longitudinal Investigation of Pesticide Exposures in relation to Fertility and Hormonal Health</i> Role: co-I; Grant Number: R01ES030378	NIEHS \$3.45 million
2024-2025	<i>Aligning science and practice to strengthen carbon accounting</i> Role: PI	High Tide Foundation \$75,000
2024–2026	<i>Adaptation and resilience to climate change in the Global South</i> Role: co-PI; other PIs: Drs. Marshall Burke and Steve Steadman	Stanford King Center \$544,075
2020	<i>Ruth L. Kirschstein National Research Service Award Individual Pre-doctoral Fellowship to Promote Diversity in Health-Related Research.</i> Role: Main PI; Grant Number: F31 ES031833	NIEHS 1-year stipend
2020	<i>Resilient clean cooking: Maintaining household clean cooking in Ecuador during the COVID-19 pandemic</i> Role: Co-Investigator; PI: Drs. Darby Jack and Alfredo Valarezo	Fogarty International Center \$32,198
2020	<i>Using repeat surveys to assess the impact of COVID-19 on household energy use in Jharkhand, India</i>	Fogarty International Center

	Role: Co-Investigator; PI: Drs. Lisa Thompson and Ajay Pillariseti	\$32,338
2019	<i>Longitudinal analysis of cooking behavior in rural Bihar, India</i> Role: Co-Investigator; PI: Dr. Johannes Urpelainen Pre-Analysis Plan	International Growth Centre \$20,000
2019	<i>Clean stacking in Ecuador: Investigating how induction changes household energy use and household air pollution exposures across scales</i> Role: Co-Investigator; PI: Drs. Darby Jack and Alfredo Valarezo	Fogarty International Center \$75,000
2018	<i>Building capacity to evaluate clean cooking in Ecuador</i> Role: Co-Investigator; PI: Drs. Darby Jack and Alfredo Valarezo	Fogarty International Center \$120,000
2017	<i>Household energy scale-up in Ecuador</i> PI: Dr. Darby Jack	Fogarty International Center \$30,000

Individual Grants

2014	<i>Mellon Forum Research Grant</i>	\$500
2014	<i>Trumbull College Richter Summer Fellowship</i>	\$1,000
2014	<i>Yale Summer Environmental Fellowship</i>	\$2,000
2013	<i>Trumbull College Richter Summer Fellowship</i>	\$1,000
2013	<i>Yale Summer Environmental Fellowship</i>	\$1,800

AWARDS

2024-2025	<i>National Center of Leadership in Academic Medicine Faculty Scholar</i> The National Center of Leadership in Academic Medicine (NCLAM) is a Health Sciences professional development program with a mentoring component for junior faculty at UC San Diego. NCLAM helps junior faculty develop skills appropriate for their academic career, implement a personal strategic plan, and expand their network of colleagues within Health Sciences and the University.	\$2,500
2024-2025	<i>Health Sciences Center of Excellence Faculty Scholar</i> UC San Diego's Health Sciences Center of Excellence Faculty Development Program is designed to improve the recruitment, retention and success of all underrepresented (UR) faculty in academic medicine at UC San Diego. The program enhances the academic skills of faculty and will provide funding for career development, research, innovative clinical care and curriculum development and will create a community of diverse faculty at UC San Diego Health Sciences.	\$10,000
2021-2023	<i>Stanford Earth Postdoctoral Fellow</i> One of three inaugural fellows. The program represents an effort to diversify the academic pipeline by supporting outstanding scholars in the fields of Earth, energy, and environmental sciences whose research and mentorship of undergraduate and graduate students will contribute to the diversity, equity, inclusion, and scientific excellence within the school.	2-year stipend
2019	<i>National Institutes of Health Travel Award</i> Award for travel to the International Society of Environmental Epidemiologists 2019 conference in Urecht, Netherlands.	\$1000

2019	<i>Award for Exemplary Doctoral Teaching Fellow in EHS</i> Awarded to an EHS Doctoral Candidate who has excelled as a teaching fellow in an EHS course.	\$200
2016-2018	<i>Initiative for Maximizing Student Development</i> Funding from NIH/NIGMS to cover stipend and partial tuition for two years. IMSD is a student development program for institutions in research-intensive environments to increase the number of students from underrepresented groups that receive doctoral training in public health and contribute to public health research focusing on those groups that experience health disparities.	2-year stipend.
2018	<i>Student Conference Travel Fund Award</i> Columbia Mailman School of Public Health Award for travel to a conference where the graduate student is presenting. Awarded for travel to the <i>Latin American Studies Association Conference</i> .	\$1100
2015	<i>Gaylord Donnelly Prize for Outstanding Senior Essay</i> Awarded by faculty of the Environmental Studies Program to recognize its most outstanding seniors for their academic achievements. The award is presented at commencement for distinguished pieces of interdisciplinary scholarship.	\$500

PRESENTATIONS

Oral Presentations

2026	ETHOS conference on cookstoves	<i>Portland, Oregon</i>
2025	SACNAS Science Showcase - Keynote (invited)	<i>UC San Diego</i>
2025	UC Trust - UK Conversation on Climate Change and Health (invited)	<i>Virtual</i>
2024	American Thoracic Society Annual Meeting (invited)	<i>San Diego</i>
2024	Stanford University Behavioral Sciences and Sustainability Conference (invited)	<i>Stanford</i>
2024	Drexel University Environmental Health Sciences Seminar (invited)	<i>Virtual</i>
2023	Advancing sustainable household energy solutions (ASHES) Seminar (invited)	<i>Virtual</i>
2023	Clean Cooking ISN Capstone Meeting (invited)	<i>NIH</i>
2022	HWSPH Special Seminar (invited)	<i>UC San Diego</i>
2022	Research University Alliance	<i>Caltech</i>
2021	Stanford Center on Food Security and Environment (invited)	<i>Stanford University</i>
2021	Chilean Forest Institute and the Univ. of British Columbia (invited)	<i>Virtual</i>
2021	International Society for Environmental Epidemiology	<i>Virtual</i>
2020	Initiative for Sustainable Energy Policy Webinar Series (Invited)	<i>Virtual</i>
2019	International Society for Environmental Epidemiology	<i>Utrecht, Netherlands</i>
2019	Sustainable Energy Transitions Initiative	<i>Santiago, Chile</i>
2018	Pan-American Health Organization Workshop to Eliminate the Use of Solid Fuels in Latin America (invited)	<i>Mexico City, Mexico</i>
2018	International Society for Environmental Epidemiology	<i>Ottawa, Canada</i>
2018	Latin American Studies Association	<i>Barcelona, Spain</i>
2018	Sustainable Energy Transitions Initiative	<i>Duke University</i>
2017	Global Alliance for Clean Cookstoves Clean Cooking Forum (invited)	<i>Delhi, India</i>

TEACHING EXPERIENCE

University of California San Diego, School of Public Health

Spring 2026	Introduction to Environmental and Occupational Health (PH 130)	<i>Instructor</i>
Spring 2026	Environmental and Occupational Health (PH 404)	<i>Co-Instructor</i>
Winter 2026	Data visualization for public health: theory and application using open source software (FMPH 491)	<i>Instructor</i>
Spring 2025	Introduction to Environmental and Occupational Health (PH 130)	<i>Instructor</i>
Winter 2025	Data visualization for public health: theory and application using open source software (FMPH 491)	<i>Instructor</i>
Spring 2024	Introduction to Environmental and Occupational Health (PH 130)	<i>Instructor</i>

Columbia University Mailman School of Public Health, Department of Environmental Health Sciences

2020	Capstone: Critical Thinking and Analysis in Environmental Health Sciences with Gregory Freyer, PhD	<i>Lead Teaching Fellow</i>
2019	Capstone: Critical Thinking and Analysis in Environmental Health Sciences with Gregory Freyer, PhD	<i>Lead Teaching Fellow</i>
2018	Capstone: Critical Thinking and Analysis in Environmental Health Sciences with Norman Kleiman & Markus Hilpert, PhD	<i>Teaching Fellow</i>
2017	Public Health GIS with Jeremy Porter, PhD	<i>Teaching Fellow</i>

Guest Lectures

2026	Health impacts of climate change	<i>UC San Diego</i>
	“Climate change and air pollution: mechanisms and health impacts”	Alexandra K. Heaney, PhD
2025	Health impacts of climate change	<i>UC San Diego</i>
	“Clean energy transitions for climate and health benefits”	Alexandra K. Heaney, PhD
2024	Health impacts of climate change	<i>UC San Diego</i>
	“Climate change, air pollution, and public health”	Alexandra K. Heaney, PhD
2024	Joint Doctoral Program Seminar	<i>UC San Diego</i>
	“Advancing understanding of how to reduce environmental exposures and improve health”	David Strong, PhD
2022	PEDS 220: COVID-19 Elective	<i>Stanford University</i>
	“Environmental correlates of COVID-19 incidence and susceptibility”	Rishi Mediratta, MD
2021	Program to Inspire Minority Undergraduates in EHS Research	<i>Columbia University</i>
	“How to summarize scientific work: Discussing how to make quality abstracts and poster presentations”	Ana Navas-Acien, MD PhD
2020	The Environmental Determinants of Infectious Disease	<i>UC Berkeley</i>
	“The Environmental Determinants of COVID-19: Interactions with Air Pollution”	Justin Remais, PhD
2020	Program to Inspire Minority Undergraduates in EHS Research	<i>Columbia University</i>
	“How to summarize scientific work: Discussing how to make quality abstracts and poster presentations”	Ana Navas-Acien, MD PhD
2017	Summer Public Health Scholars Program	<i>Columbia University</i>
	“A Primer on Environmental Health Sciences: Discussion of the origins and effects of household air pollution”	Jacqueline Scoon, MD MPH

PROFESSIONAL SERVICE

Ad hoc referee: *Proceedings of the national academy of sciences, Nature Energy, Lancet Planetary Health, One Earth, JAMA Health Forum, Environmental science & technology, Environmental health perspectives, Energy Policy, Journal of Exposure Science & Environmental Epidemiology, Environment International, Environmental Epidemiology, Environmental Research Letters, Energy Economics, Environmental Research, Energy Research & Social Science, World Development Perspectives, Nature Cities, PLOS ONE, Indoor Air, Atmosphere, Sustainability, Papers in Regional Science, Journal of Development Studies, Development Engineering, Humanities and Social Sciences Communications, Journal of Health and Pollution, Environmental research: climate, Environmental Justice, Nature Communications, American Journal of Respiratory and Critical Care Medicine, EcoHealth, Review of Economics and Statistics*

California Health Benefits Review Program (2024-Present): I am a contributing member of the Public Health group in California Health Benefits Review Program (CHBRP), which provides independent analysis of the medical, financial, and public health impacts of proposed health insurance benefit-related legislation from the State Legislature. A task force of faculty in the UC system, researchers, and actuarial consultants, conducts impartial and evidence-based analyses of health insurance mandate bills within 60 days. These analyses support legislative decisions without making recommendations, with the process fully documented to maintain transparency.

Agents of Change in Environmental Justice Fellow: Spring 2021 fellow. Agents of Change is an ongoing series featuring the stories, analyses and perspectives of next generation environmental health leaders who come from historically under-represented backgrounds in science and academia. This initiative aims to develop diverse thought leaders who are empowered to develop innovative solutions for environmental justice and health equity. Fellows meet each month in seminars to share and learn from peers and gain new skills in communicating in various media forms. As fellows, we are hosted on the Agents of Change podcast; the transcript and audio for mine are available [here](#). I also published two essays on the Environmental Health Network website: (1) on environmental health technology adoption and poverty [here](#) and (2) a written interview with Black and Latina researchers about health equity research and career advice [here](#).

International Society for Environmental Epidemiology Peer Editor: I served as a peer editors in the ISEE Peer Editing Program. The goal of the peer editing program is to promote equity and representation in environmental health publications by providing manuscript editing assistance to researchers affiliated with institutions residing in low- and middle-income countries and those from under-represented minority groups. The program is partnered with *Environmental Health Perspectives* and *Environmental Epidemiology*.

Stanford Doerr School of Sustainability Dean's Postdoctoral Fellowship Selection Committee: I served on the selection committee for this postdoctoral fellowship (which supported my own time at Stanford) in 2023.

San Diego State and UC San Diego Joint Doctoral Program for Epidemiology Admissions committee: I review, comment on, and meet to discuss admissions to the PhD program.

Society for Advancement of Chicanos/Hispanics and Native Americans in Science (SACNAS) Faculty Advisor: I meet regularly with student leaders to mentor, provide guidance on programming and research opportunities, and support efforts to build an inclusive and supportive scientific community.

Mentorship:

PhD Students

- Jenni Shearston (Columbia University; now faculty at CU Boulder), 2018–Present.
- Sarika Khanwilkar (Columbia University), 2019–2021.
- Misbath Daouda (Columbia University; now Assistant Professor at UC Berkeley), 2019–Present.
- Nina Flores (Columbia University, 1st Year PhD Student), 2020–2021.
- Jeff Wen (Stanford University; now at Tesla), 2022–2023.
- Iván Higuera-Mendieta (Stanford University), 2022–Present.
- Emma Krasovich Southworth (Stanford University), 2023–2024.
- Jacob Carson (UC San Diego), 2023–Present.
- Kristina Brandveen (UC San Diego; Thesis Committee Member), 2023–Present.
- Elizabeth Mikita (UC San Diego; Practicum Advisor), 2025–2026.
- Andrea Krzyzaniak (UC San Diego; Practicum Advisor), 2025–Present.
- Francisca Rivera (UC San Diego; Thesis Committee Member), 2025–Present.

Master's Students

- Kayleigh Kornher (UC San Diego MPH; Master's Thesis Advisor), 2023–2025.
- David Du (UC San Diego MPH; Master's Thesis Advisor), 2024–2025.
- Zach Blundell (UC San Diego MPH; Master's Thesis Advisor), 2024–2025.

- Val Catanzerite (UC San Diego MPH; Master's Thesis Advisor), 2024–2025.
- Daniela Hannah (UC San Diego MPH; Master's Thesis Advisor), 2024–2025.

Undergraduate and High School Students

- Emilio Molina Rueda (Universidad San Francisco de Quito; now PhD student at Colorado State University), 2018–2021.
- Lissete Davila (Universidad San Francisco de Quito), 2021–2022.
- Rhokaya Khalaf (Summer Undergraduate Research Fellow, Gannon University), 2023.
- Divyansh Agrawal (High School Student), 2023–Present.
- Taketo Chen (UC San Diego), 2024–Present.
- Shiv Puliady (UC San Diego), 2025–Present.
- Ellie McCarty (UC San Diego; CHBRP Practicum Advisor), 2026–2026.

Membership: International Society of Environmental Epidemiology
